

Reimer Volumetric Concrete Mixer Specification

Unit Designation:	9.2m ³ (12yd ³)
Production rate:	Variable up to 60 m ³ / hour max.
Weight:	4100kg Mixer
Approx mixer dimensions:	6800 long x 2292wide x 2320 high (mm)
Drive options: (For Hydraulics & load mixing)	Power Take Off (PTO) or Donkey Engine (400kg)
Bin storage capacity (min):	11.6 m ³ Aggregates 2.7 m ³ Cement 1817litres Water
Controls:	In cab & remote Wanderlead or Radio Hawk Computerised Batch information system
Manufacturing Standard:	VMMB & ASTM C685/685M-00 Also CE Marked
Delivery accuracy:	Cement, mass% 0 to +4 Fine Aggregates, mass% +/- 2 Coarse Aggregates, mass% +/- 2 Admixtures, mass or volume% +/- 3 Water, mass or volume% +/- 1
Vibrators:	Pneumatic, Hydraulic or Electric
Paint Specification: (powder coat)	PPG# 549-100 tinted 1309 Phillips Ind. Coatings Endura Westward White # 011805 (for motors) RAL 9016
Extras:	In Cab Printer 305mm wide auger Foamer Unit Fibre feeder Colour feeder Dual flow admix injection system Additional chutes Rapid set system
